

Container Yard

Chesapeake, Virginia

Featured Product(s):

Geogrid

InterAx

Product Advantages:

- Less stone to be hauled in and placed.
- No construction overruns.
- No additional stormwater changes or additional storage required.
- No change in grade.
- Faster overall construction time.

The Challenge

During construction, the owner and engineer realized that a substantial amount of stone would need to be transported to stabilize the Container Yard, impeding progress, and altering the desired grades.

The Solution

Ferguson provided design assistance to reduce fill and stabilize the Container Yard. In addition, this reduced the stormwater storage required.
