WITH MYCORRHIZAE AND HUMATES

Richlawn 7-2-3 is a CDOT-approved natural, organic fertilizer containing slow-release nitrogen and organic phosphorus. Richlawn 7-2-3 restores depleted soils by adding essential nutrients to build a sustainable environment in which to establish vegetation quickly.

BENEFITS

- Increases the nutrient and water-holding capacity of the existing soil
- Increases soil porosity which promotes superior root establishment
- Mycorrhizae transports soil nutrients and delivers them to the plant's roots, greatly reducing fertilization and water requirements
- Humates add organic material to the soil which increases soil microbiology and water-holding capacity
